Accessing land is one of the most complex financial decisions that you will make as a farmer.

In this workshop designed for aspiring and early career farmers, we will prepare you to approach your land access journey with confidence. You will:

- Engage in participatory goal-setting and financial planning exercises
- Learn about the programs and resources available to help farmers find and afford farmland
- Discover new financial planning tools created for farmers, including NYFC's Finding Farmland Calculator and LSP's Financial Decision Making Tool
- Hear directly from farmers about the creative methods they used to secure land tenure

*This workshop is offered at no cost to participants
Lunch and refreshments will be served*

Saturday, September 15, 2018
9am - 4pm

Peace United Church of Christ
1503 2nd Avenue NE, Rochester, MN
