

Who is the Red Rooster Ranch?

We are Mervin and Cherlyn Beachy. Our small farm is located just a few miles west of St Ansgar, Iowa.

On our farm, we use sustainable methods, focusing especially on healthy, balanced soil. We are passionate about providing folks with real food packed with nutrition.

We raise grass-fed beef, all-natural pork and pastured chicken. This is processed according to USDA guidelines and sold direct to consumer. We also have eggs from pastured laying hens. We grow strawberries and a wide array of vegetables.

Our family includes three little children who delight in being outdoors, spending time with our animals and eating food that they have helped to raise.
