Successful Start to Summer of Events

The first full of fall field day season has been a boost for the Soil Health. Thank you to all of LSP’s field day and webinar attendees. We built on new attendees, but also brought back folks who have been attending with us since 2007! We’ve had the opportunity to showcase our work in Iowa and will continue to do so. LSP field day teams and project leads are excited to participate in these events and connect directly with other farmers and landowners.

- • regenerative farming & grazing

- Johnson-Su Bioreactor system

- Utilizing a Johnson-Su Bioreactor to practically develop fungal-dense composts that can be applied as a beneficial inoculant to depleted soils. Sign up here!

- • Soil Builders’ Network

- Check out our recent podcast featuring a conversation with Allen Williams and his presentation, “The First Time I Heard One of Albert’s Presentations.” I would highly recommend watching his presentations, listening to his webinar, and possibly attending a Soil Health Academy or a region wide in-person event!

- • Regenerative Farming & Grazing

- Mike Hunnicutt and Jamie Koziolek, LSP’s Non-operating Landowners, present on Aug 17 and 18 with Allen Williams! See, discuss, and experience regenerative farming practices firsthand in a LSP field day Friday, Aug. 26, from 10 a.m. to 3 p.m., at the Dale and Carmene Pangrac-Kim Farm, Caledonia, MN, Aug. 18, 9 a.m. - 4 p.m.
